

LEGAL AD

Municipal Engineering Services

The City of Norton intends to contract for municipal engineering and surveying services for construction observation of the Medina Line Road Project. The city proposes the firm be designated Engineer in Charge and handle all required activities for this project herein.

Firms interested in being considered for contract to provide the required services should reply with a statement of qualifications no later than 3pm February 25th, 2019. Statements received after the deadline will not be considered.

Statements of qualifications shall include information regarding the firms' history; education and experience of key personnel; technical expertise of the firm's current staff; firm's experience operating at a municipal engineer; availability of staff; firm's equipment and facilities; approach; references; and any alternatives suggested.

SOQ should be transmitted to:

City of Norton
4060 Columbia Woods Drive
Norton, OH 44203
Attn: Robert Fowler

One (1) copy of the SOQ's is required.

As required by O.R.C. 153.65-71, responding firms will be evaluated and ranked in order of their qualifications. Following this evaluation, the City of Norton will enter into negotiations with the most highly qualified firm.

Preliminary Project Description:

To establish a contract for engineering services for the City of Norton. The services for construction observation of the Medina Line Road Project. The firm will also be responsible for drafting grant submissions and project administration.

By order of the Administrative Officer
Advertised through February 24, 2018.
